1. INTRODUCTION:

Financial performance analysis includes analysis and interpretation of financial statement in such a way that it undertakes a full diagnosis of the profitability and financial soundness of the business. The financial analyst program provides vital methodologies of financial analysis.

Financial statement provides a formal record of a business' financial activities and position financial information is presented in an understandable and structured manner.

1.1 OVERVIEW:

To understand a bank's financial position-both on its own and within its industry-you need to review and analyse several financial statements in below:

1) Balance Sheet
2) Income Statement
3) Cash Flow Statement
4) Annual Report

1.2 PURPOSE:

To knowledge of financial performance helps in predicting comparing and evaluating the earning ability of the bank. It also helps in investment and financial decisions. Bank provides financial information through financial information through financial statement and reports.

Financial performance analysis includes analysis and interpretation of financial statements in such a wat that it undertakes a full diagnosis of the
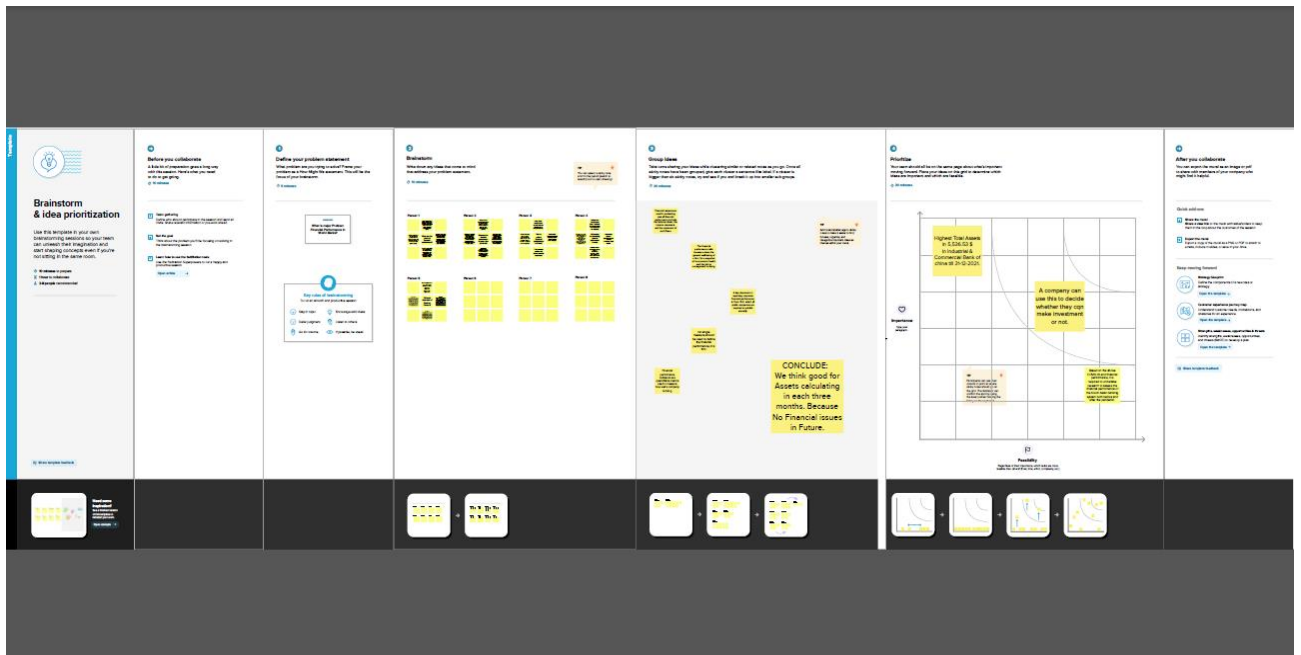

profitability and financial soundness of the business. The financial analyst program provides vital methodologies of financial analysis.

2. PROBLEM DEFINITION & DESIGN THINKING:
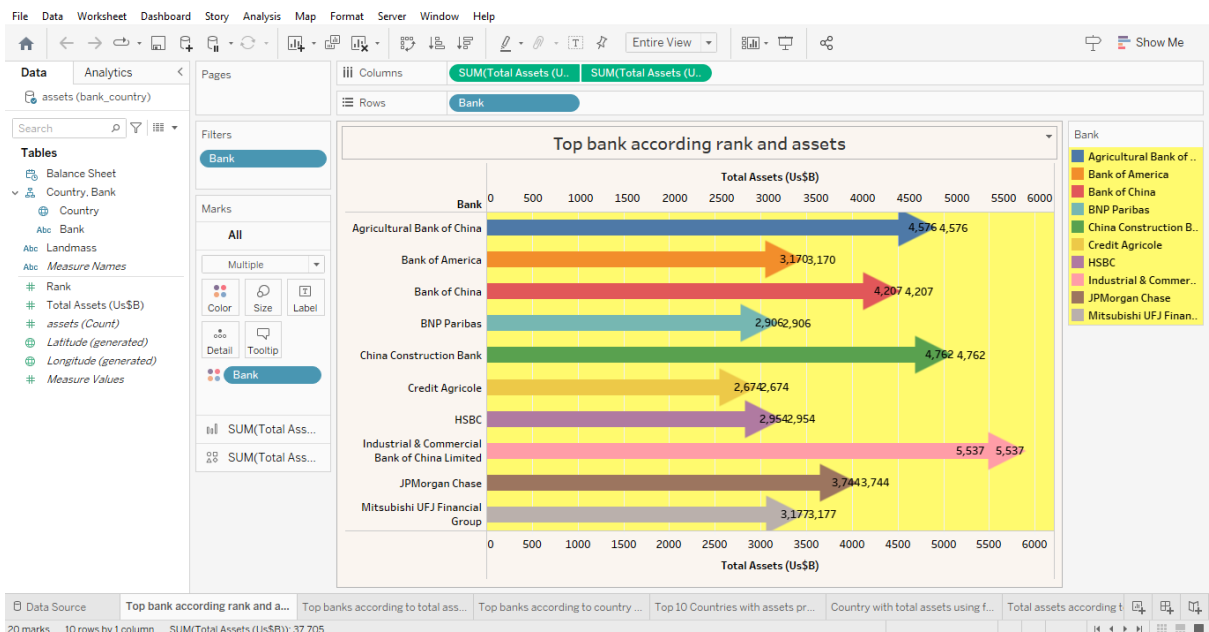

2.1 EMPATHY MAP:
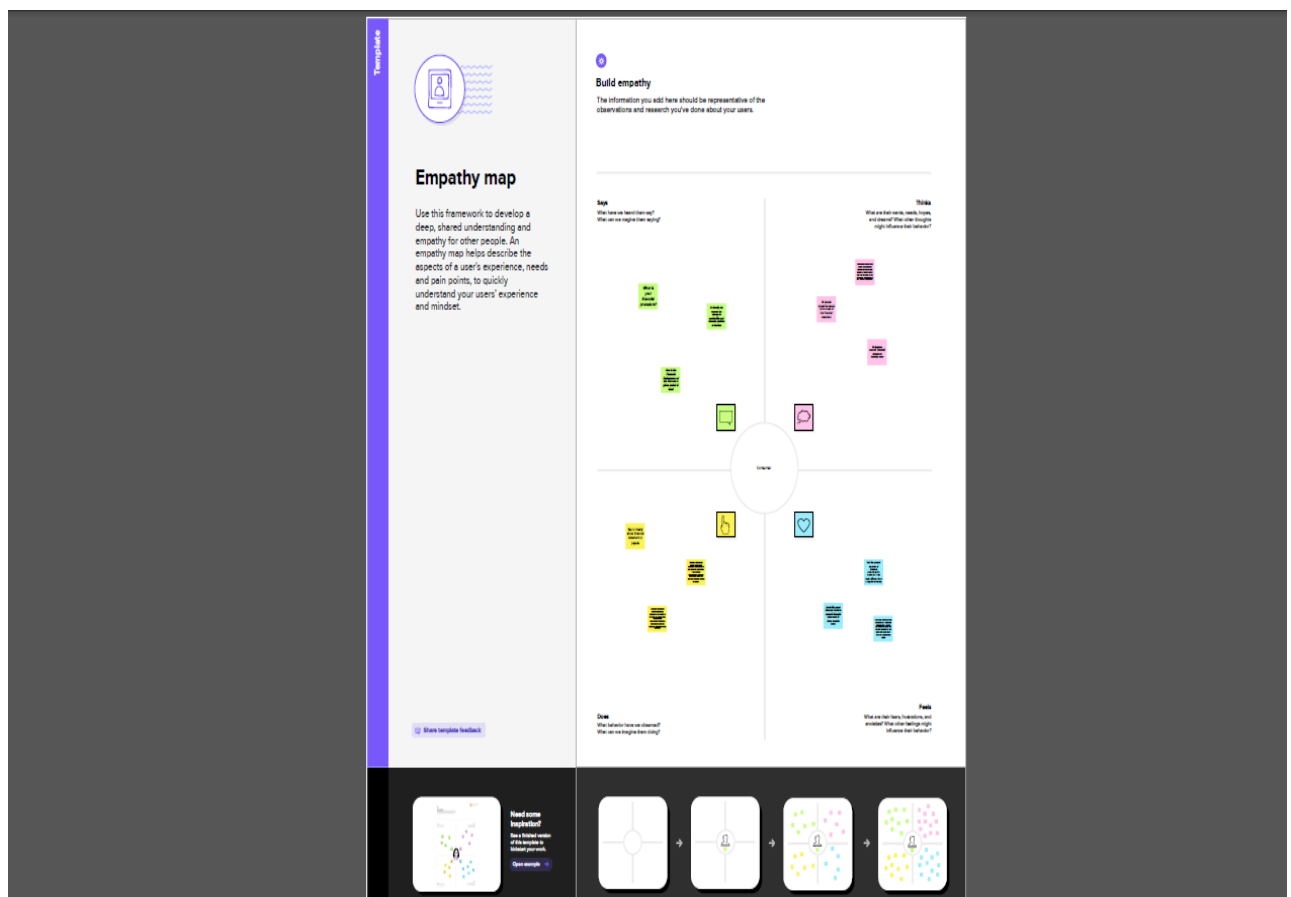

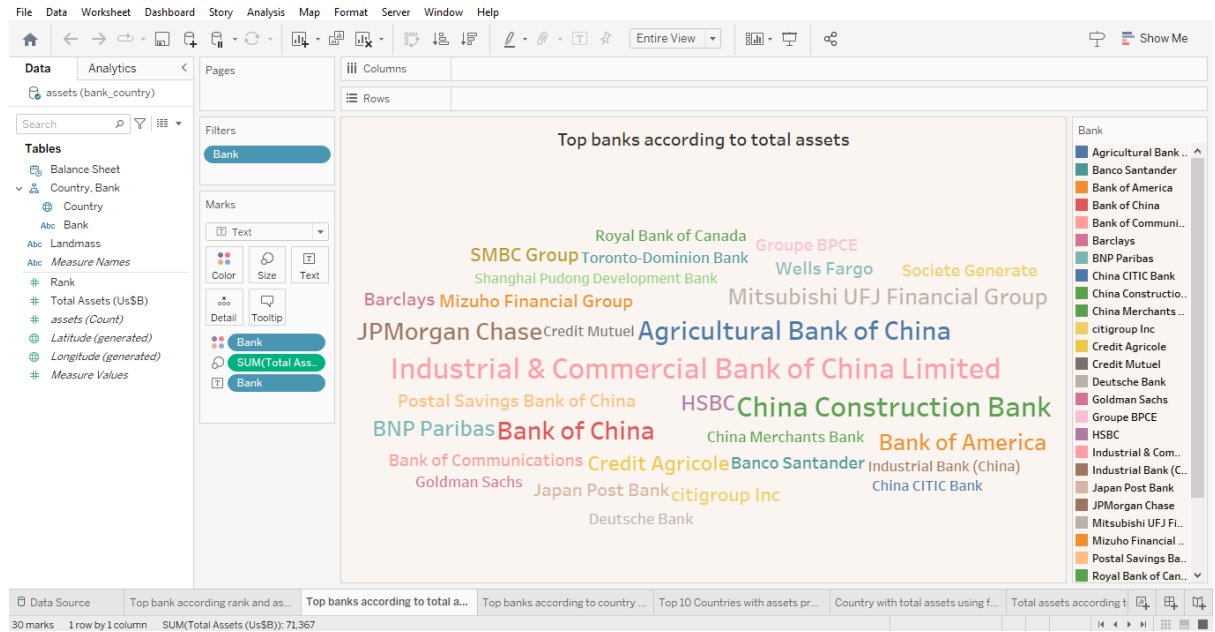

2.2 IDEATION & BRAINSTORMING MAP:

3. RESULT:

3.1 Top banks according rank and assets:

3.2 Top banks according to total assets:

3.3 Top banks according to country bases on total assets:
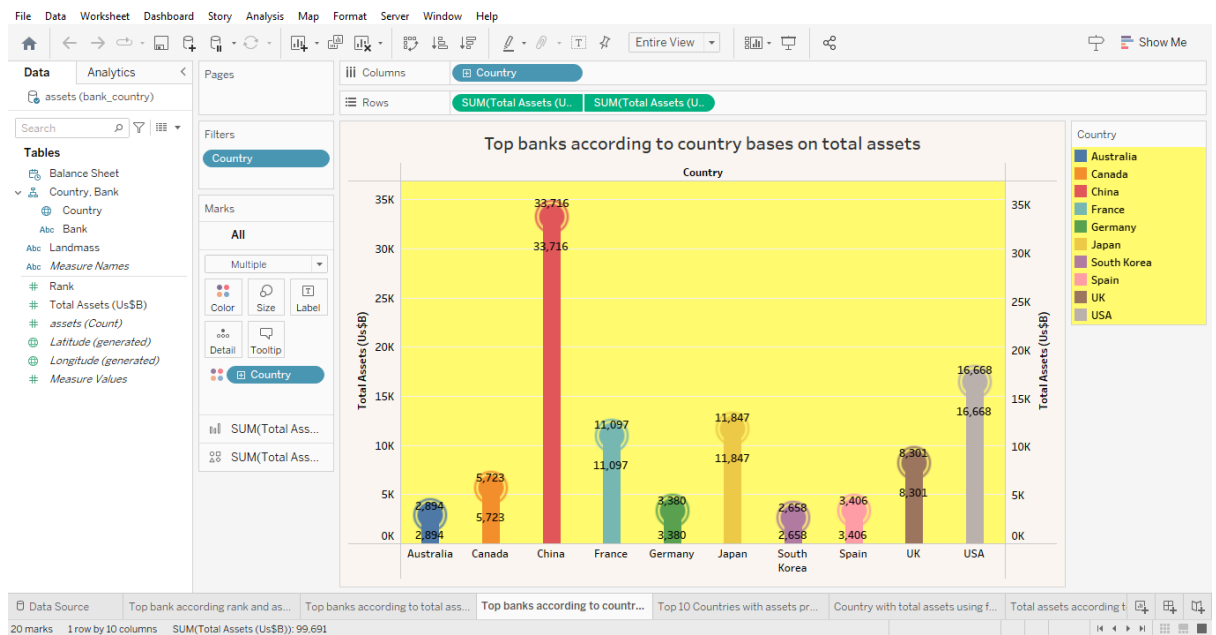

3.4 Top-10 countries with assets proportion:
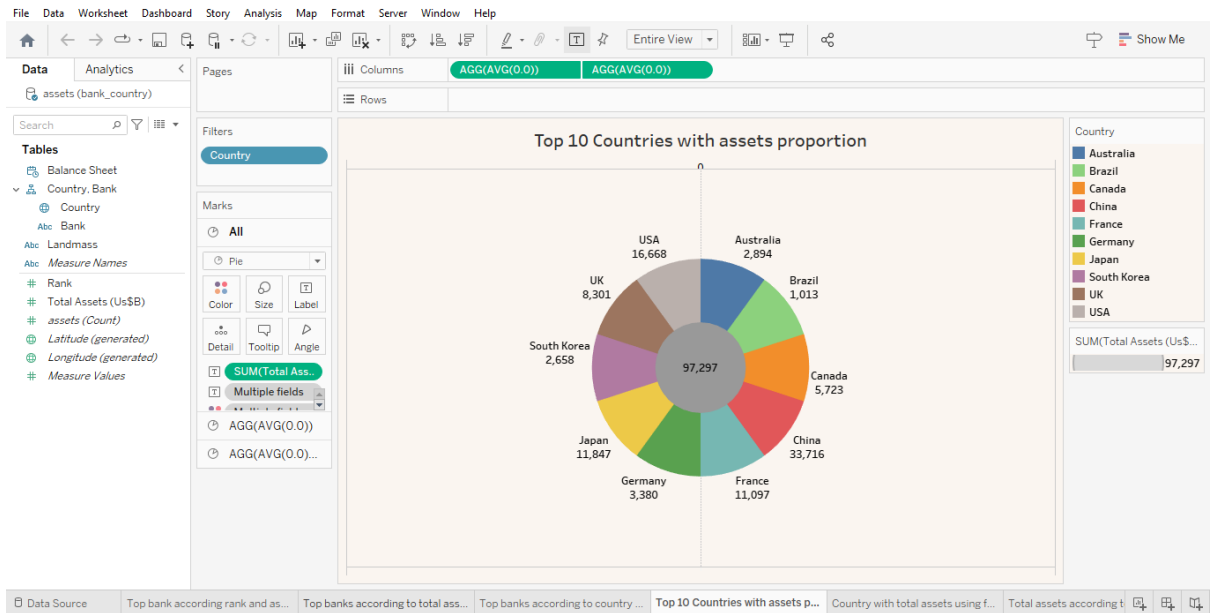

3.5 Country with total assets using funnel chart:
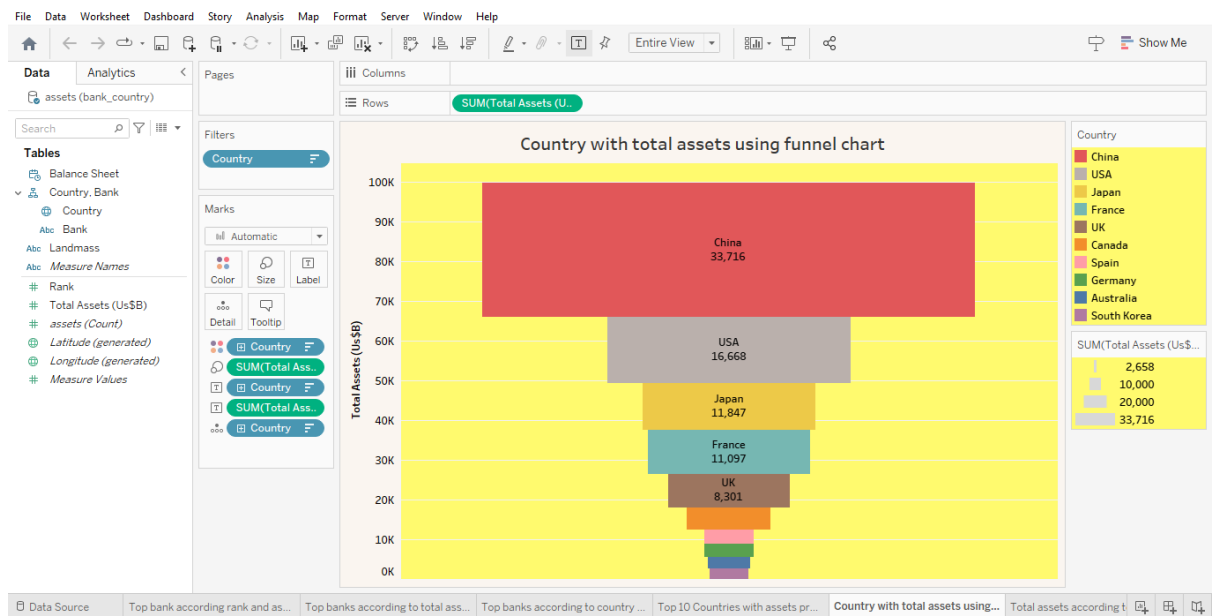

3.6 Total assets according to year and quarter:
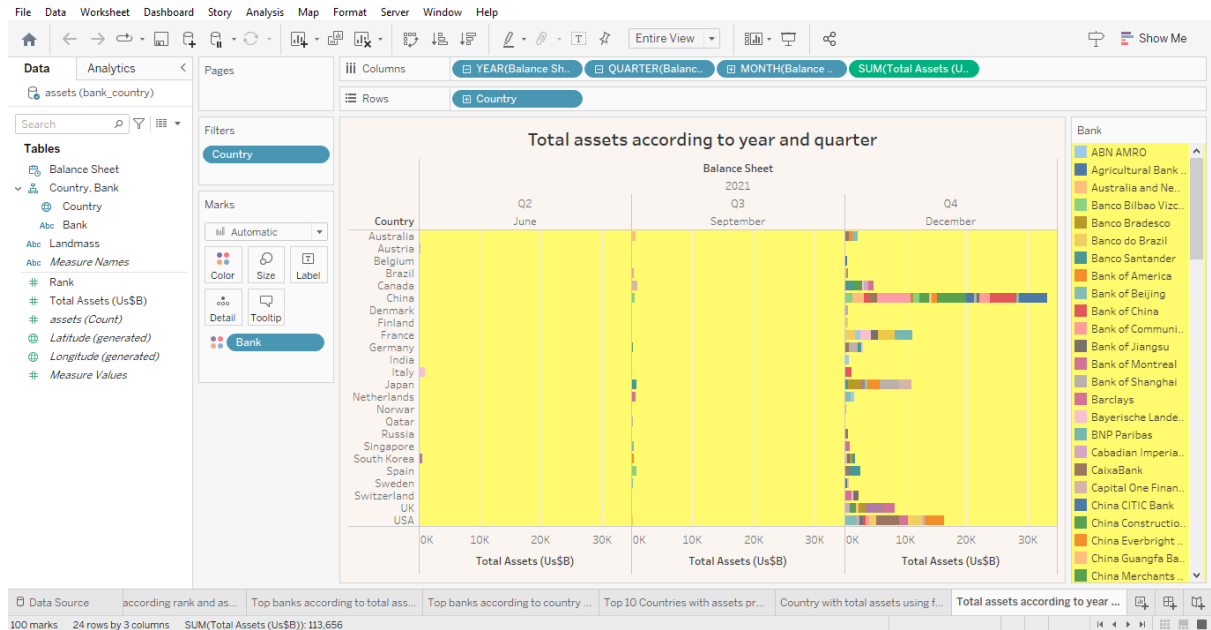

4. ADVANTAGES & DISADVANTAGES:

ADVANTAGES	DISADVANTAGES
Safely storing the public's wealth	The chances of going bankrupt
The widespread availability of affordable loans	The risk of fraud and robberies.
Propelling the economy forward.	This can occur in a crashing economy, as seen during the Great Depression.

5. APPLICATIONS:

A mortgage or rent, bank loans, money owed to suppliers, taxes due to the government, and employee payroll obligations. Current liabilities are obligations due within a year, while long-term liabilities are due more than one year out.

6. CONCLUSION:

Analysis of financial statements is extremely important for every business to grow and increase their revenue. It should not be compromised since it increases the efficiency of business operations. Better processes and expert analysis can help in the detailed analysis process.

7. FUTURE SCOPE:

- The banking sector is at a turning point. Key measures for banks are at a historical low point. The sector's price-to-book value has fallen to less than one-third the value of other industries.
- That gap is less the result of current profitability and more about uncertain profit growth in the future. While bans have pushed for great improvements recently.
- Margins are shirking-down more than 25 percent in the past 15 years and expected to fall to 30 percent, another 20 percent decrease, in the next decade.
- Regulation and increasing intersectional competition are still worries, but the bigger threat is a global trend: news challenges-often from different industries and often benefiting from the kind of cross-industries platforms behind the recent success of companies such as Amazon, Google, Microsoft, PayPal and Spotify-with a vastly superior economic model.
- The market believes that banks are headed in the wrong direction, without a future-proof strategy.
- In the next era, banks can realign to compete in new arenas, organized around distinct customer needs. These arenas will expand far beyond the current definition of financial services and they will also be hotly contested by a wide range of tech giants, tech start-ups, and other nonbanks.
- But this daunting reorganization, or breakup, could also provide banks with a Hugh opportunity: higher margins, new revenue streams, and loftier valuations. Ambitious banks can break free from stagnant

valuations, thrive, and grow if they are willing to embrace the
platforms of the future and make a few strategic, informed big bets.
